Dolomite DF 1000

This is a natural, high purity, dolomitic limestone (calcium-magnesium carbonate). Two products are available. It is used in a wide variety of industrial and agricultural applications such as fillers in stucco and grouts, swimming pool plaster, soil treatment and acid neutralization.

Chemical Composition:

$CaCO_3$	55.0%
$MgCO_3$	43.0%
Fe_2O_3	0.3%
Moisture	0.1%

Typical Properties:

Bulk Density	110 lbs. / ft^3
Dry Brightness (Hunter y, Rd Value)	79

Particle Size - US standard mesh
Cumulative % retained

+10	0%
+16	10%
+20	25%
+30	40%
+50	80%
+100	95%
+200	100%

Packaging: Bulk, supersacks and 50 lb. bags

Origin: U.S.A.
